

How to Display Additional Custom Quotas on Cloud User Portal Overview Page

As of 08/17/18:

**** Alert: This solution requires the modification of OOB code. Take this into consideration when implementing for upgrade scenarios. ****

Release

Kingston Patch 7

Use Case

Display additional quotas on the “Quota” widget of the Cloud User Portal welcome page if custom quotas are added beyond the 4 OOB quotas. The Quota widget OOB is hardcoded to only display 4 quotas; additional quotas are not automatically displayed in this panel. This solution provides the customer an option to display additional quota “dials” in this Quota widget if desired.

How-To Steps

Modify the OOB “Cloud Quota Chart” widget to display additional quota dials beyond the hardcoded 4 dials.

Note: This solution is not 100% dynamic; the HTML template is restricted to a hardcoded, specific number of bootstrap container blocks in a 2x2 layout. Since the tool allows for an X number of quotas to be added to the system, it is recommended to maximize this layout to a total of 6 quota dials and instruct the user to click on the “View all” link at the bottom of the Quota widget to view all the quota details.

1. If you are not already in the Cloud Management Platform application scope, switch application to Cloud Management.
2. Go to Service Portal --> Service Portal Configuration.
3. Click on the Widget Editor tile and specify the “Cloud Quota Chart” widget under the Edit an existing widget field.

4. Display the “HTML Template” and “Link Function” panels and replace the OOB code with the attached custom code in each respective panel:

HTML Template:

Refer to the “Cloud Quota Chart – Custom HTML_v1.0” attachment.

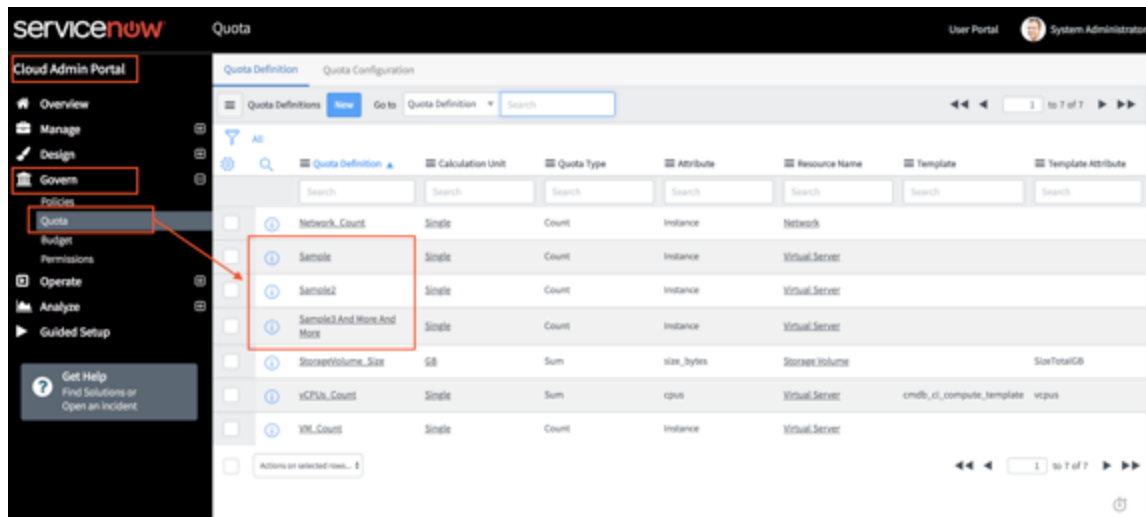

Link Function:

Refer to the “Cloud Quota Chart – Custom Link Function_v1.0” attachment.

5. Go to Cloud Admin Portal --> Govern --> Quota and click the New button under Quota Definition to add X number of quotas.

Example:

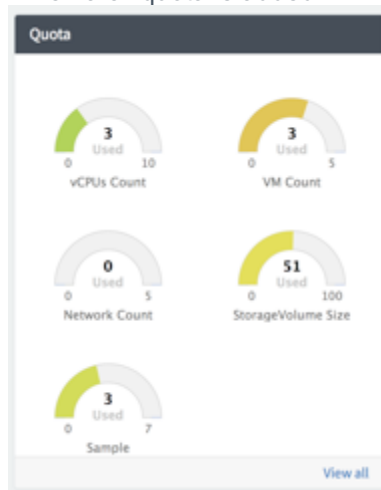

Created 3 additional custom quotas (Sample, Sample2, Sample3 And More And More).

- Ensure the quotas apply to your user. Go to Cloud User Portal (refresh the page if necessary). The additional quotas up to a total of 6 quotas will be displayed in the “Quota” panel on the main Cloud User Portal welcome page.

Example:

When a 5th quota is added.

When a 6th & 7th quotas are added.
